**Greetings,**

I'm writing in response to the posted position, please see attached resume. I am very interested in this opportunity and believe my qualifications, modern and unique tech savvy skill set, and professional experience make me a strong candidate.

My Internet career began as the first website producer for the first website design WYSIWYG. For over 20 years I've successfully performed for national brands, financial institutions, major agencies, and as an agency servicing small businesses.

Technical, versatile, creative, enthusiastic, experienced and reliable. Proven business knowledge and expertise and leadership qualities. Eager to learn new technologies, skills and platforms and become a subject matter expert for your business. A Google Partner and intuitive-thinker; and Web, Search, Creative and Business polymath.

I seek an opportunity to speak with you about this position and how my skills and experience could help your company achieve its goals. References and recommendations are available upon request, and on [LinkedIn](#).

Regards, Mark Derho
